

ANNUAL REPORT 2019

3.4.3 OTHER REMUNERATION INFORMATION

In this section, various new tables are included, in compliance with the implementation of the EU Shareholders' Rights Directive into Dutch law. These tables are designed to increase transparency and accountability for the execution of the RP 2018 and aim to allow shareholders, potential investors and other stakeholders to better assess Management Board remuneration.

Overview share based incentives

The following table represents the movements during 2019 of all unvested shares (the total number of vested shares

held by Management Board members are reported in section 3.4.2 under Shareholding requirement Management Board). Unvested Long-Term Incentive (LTI) shares in the columns Outstanding at the beginning and/or end of the year, are reported at the Target LTI numbers. The actual vesting hereof in the year are shown for the actual number as per the outcome of the performance criteria and as per the relevant Remuneration Policy. As at December 31, 2019 the following share-based incentives are outstanding:

| · | Outstanding at the beginning of 2019 | Granted | Vested | Outstanding at the end of 2019 | Status at the end of 2019 | Vesting date | End of blocking period | Fair value of share at the grant date – € | Fair value of the TSR component –€ |

Remuneration of the Management Board by member in thousands of EUR:

The purpose of this table is to show actual total remuneration of Management Board members during the reported financial year and shows the STI 2019 and the LTI 2016-2018 (which vested in 2019). The relative proportion of fixed and variable remuneration in the reported financial year is also presented, whereas for the purpose of this table, the Value Creation Stake is earmarked as variable remuneration. The total remuneration in 2019 is impacted by the vesting of both the 2016-2018 LTI cycle, granted in 2016, as well as the Value Creation Stake, granted in 2019. The total remuneration in 2018 is simultaneously impacted by the 2015-2017 LTI cycle, granted in 2015, and the Value Creation Stake, granted in 2018. The last LTI program (the 2017-2019 cycle) will vest in 2020.

This table is included to comply with Dutch law. It is in line with the current draft Guidelines on the Standardized Presentation of the remuneration report as regards the encouragement of long-term shareholder engagement. Since this table includes former LTI programs, the total remuneration is impacted by the vesting of two separate programs.

Comparative table on the change of remuneration and company performance over the last five reported financial years

In the table below, information on the annual change of remuneration of each individual Management Board member is set out over the five most recent financial years. In addition, the performance of the Company (measured in Directional Underlying EBITDA and TRIFR) is displayed as well as the average remuneration on a full-time equivalent in thousands of EUR basis of employees of the Company (calculated in the same manner as the internal pay ratio in this section). Under RP 2015, LTI shares vested three years after award. Under RP 2018, the LTI was replaced by the Value Creation Stake, which vests immediately upon award. As a result, for the years 2018 and 2019, this table includes both the former LTI vesting and the Value Creation Stake.
