ENERGY. COMMITTED.

ANNUAL REPORT 2019

5.5 CERTIFICATION AND CLASSIFICATION TABLES

Complementing sections 2.7.2 Quality and Regulatory Management and 3.10 Operational Governance, the below tables map the compliance and certification of SBM Offshore entities and (onshore and offshore) sites with the following international certification standards and codes:

- ISO 9001 – International Standard related to Quality Management Systems

- ISO 14001 – International Standard related to Environmental Management Systems
- OHSAS 18001 – International Standard related to Occupational Health & Safety Management Systems (transitioning to ISO 45001)
- 'Class' – Marine Certification by Classification Societies (e.g. ABS – American Bureau of Shipping)
- ISM – International Safety Management Code (from IMO – International Maritime Organization)
- ISPS – International Ship & Port Facility Security Code (from IMO)

5.6 ASSURANCE REPORT OF THE INDEPENDENT AUDITOR

To: the Management Board and Supervisory Board of SBM Offshore N.V.

Assurance report on the sustainability information 2019

Our conclusion

Based on our procedures performed, nothing has come to our attention that causes us to believe that the sustainability information included in the annual report 2019 of SBM Offshore N.V. does not present, in all material respects, a reliable and adequate view of:

- the policy and business operations with regard to sustainability; and
 - the thereto related events and achievements for the year ended 31 December 2019
- in accordance with the Sustainability Reporting Standards of the Global Reporting Initiative (GRI) and the internally applied reporting criteria as included in the section 'reporting criteria' below.

What we have reviewed

We have reviewed the sustainability information included in the annual report for the year ended 31 December 2019, as included in the following sections in the annual report (hereafter 'the sustainability information'):

- Chapter 1 : At a glance;
- Chapter 2 : Strategy and performance;
- Chapter 3.8 : section 'Compliance'; and
- Chapter 5 : Non-financial data.

This review is aimed at obtaining a limited level of assurance.

The sustainability information comprises a representation of the policy and business operations of SBM Offshore N.V., Amsterdam with regard to sustainability and the thereto related business operations, events and achievements for the year ended 31 December 2019.

The basis for our conclusion

We have performed our review in accordance with Dutch law, which includes the Dutch Standard 3810N 'Assuranceopdrachten inzake maatschappelijke verslagen' ('Assurance engagements on corporate social responsibility reports'), which is a specified Dutch Standard that is based on the International Standard on Assurance Engagements (ISAE) 3000, 'Assurance Engagements other than Audits or Reviews of Historical Financial Information'. Our responsibilities under this standard are further described in the section 'Our responsibilities for the review of the sustainability information' of this assurance report.

We believe that the assurance information we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Independence and quality control

We are independent of SBM Offshore N.V. in accordance with the 'Verordening inzake de onafhankelijkheid van accountants bij assuranceopdrachten' (ViO – Code of Ethics for Professional Accountants, a regulation with respect to independence) and other for the engagement relevant independence requirements in the Netherlands. Furthermore, we have complied with the 'Verordening gedrags- en beroepsregels accountants' (VGBA – Dutch Code of Ethics).

We apply the 'Nadere voorschriften kwaliteitssystemen' (NVKS – Regulations for quality systems) and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and other applicable legal and regulatory requirements.

Reporting criteria

The sustainability information needs to be read and understood in conjunction with the reporting criteria. The Management Board of SBM Offshore N.V. is solely responsible for selecting and applying these reporting criteria, taking into account applicable law and regulations related to reporting.

The reporting criteria used for preparation of the sustainability information are the Sustainability Reporting Standards of the Global Reporting Initiative (GRI) and the internally applied reporting criteria, as disclosed in section 5.1 'Scope on non-financial information' of the annual report. The absence of an established practice on which to draw, to evaluate and measure non-financial information allows for different, but acceptable, measurement techniques and can affect comparability between entities and over time.

We have reviewed the sustainability information taking into account the reporting boundaries set by SBM Offshore N.V., as disclosed in section 5.2 'Reporting boundaries'.
